# 1. Introduction

Developments to our questionnaires reflect and drive best practice, improving both data quality and the disclosure experience. CDP has sought to stabilize the climate change questionnaire for 2021 as much as possible.

This document includes two tables:

- ▼ The first indicates where 2021 questions differ from the 2020 questionnaire, due to a minor change, modification, or a development.
- ▼ The second sets out the structure of the 2021 questionnaire, shows which questions form the minimum version of the questionnaire, and indicates the linkages between questions. It presents a list of the modules and questions.

The 2021 climate change questionnaire, including sector questions and the reporting guidance, can be viewed at [www.cdp.net/en/guidance](http://www.cdp.net/en/guidance).

## Summary of 2021 changes to the climate change questionnaire

95% of the questions in the 2021 climate change questionnaire have either no change or just minor changes (excluding sector specific and supply chain module questions). Three questions have been modified and three new questions have been added. No questions have been removed this year.

The figures opposite show the magnitude of changes within each module.

## Summary of 2021 changes to sector specific questions

There are no new or modified sector specific questions. Some minor changes have been made in four Financial services sector questions.

## 2021 Changes: climate change questionnaire

(excludes sector specific and supply chain module questions)

## 2. 2020 to 2021 changes
