
2019 On-Demand Scoring

Information for climate change, forests and water security scores

Introduction to On-Demand Scoring

CDP, in conjunction with our scoring partner, ADEC Innovations, is offering On-Demand Scoring for 2019. This service provides official climate change, forests, or water security scores to companies that miss the July 31, 2019 submission deadline¹.

By commissioning a CDP On-Demand Score, your company will receive:

- ▼ A score that grades and quantifies the completeness, quality, and environmental management performance of your CDP disclosure.
- ▼ A feedback chart plotting your score against your sector benchmark (see 2018 example chart below).

By default, the On-Demand Score is public and will be available on the CDP website, and to requesting stakeholders. If you would like the score to be private, you must request and confirm this with CDP via scorefeedback@cdp.net²

For more on eligibility for the A List, please see Scoring Introduction 2019.

How to request an On-Demand Score

On-Demand Scoring is available from August 2019 to April 2020. The fee for the On-Demand Score is US\$1,850 (in other currencies: £1,350 or €1,650) and can be paid by invoice or credit card.). The fee applies per program: climate change OR forests OR water security. Multiple On-Demand Scores for multiple programs will incur multiple fees.

To confirm your request for 2019, please email scorefeedback@cdp.net with “On-Demand Score” in the subject line.

In order for an On-Demand Score to be included in CDP reports (e.g. the A List) at the time of global release in late 2019, the response must be submitted, and the On-Demand Score requested, by August 28, 2019. Failure to do so will result in your submission being scored after the global scores launch.

If you are a consultant working on behalf of a company, please note that the request for the On-Demand Score must come directly from a company contact and not from a third party.

Contact us

If you have any questions about On-Demand Scoring, please contact scorefeedback@cdp.net.

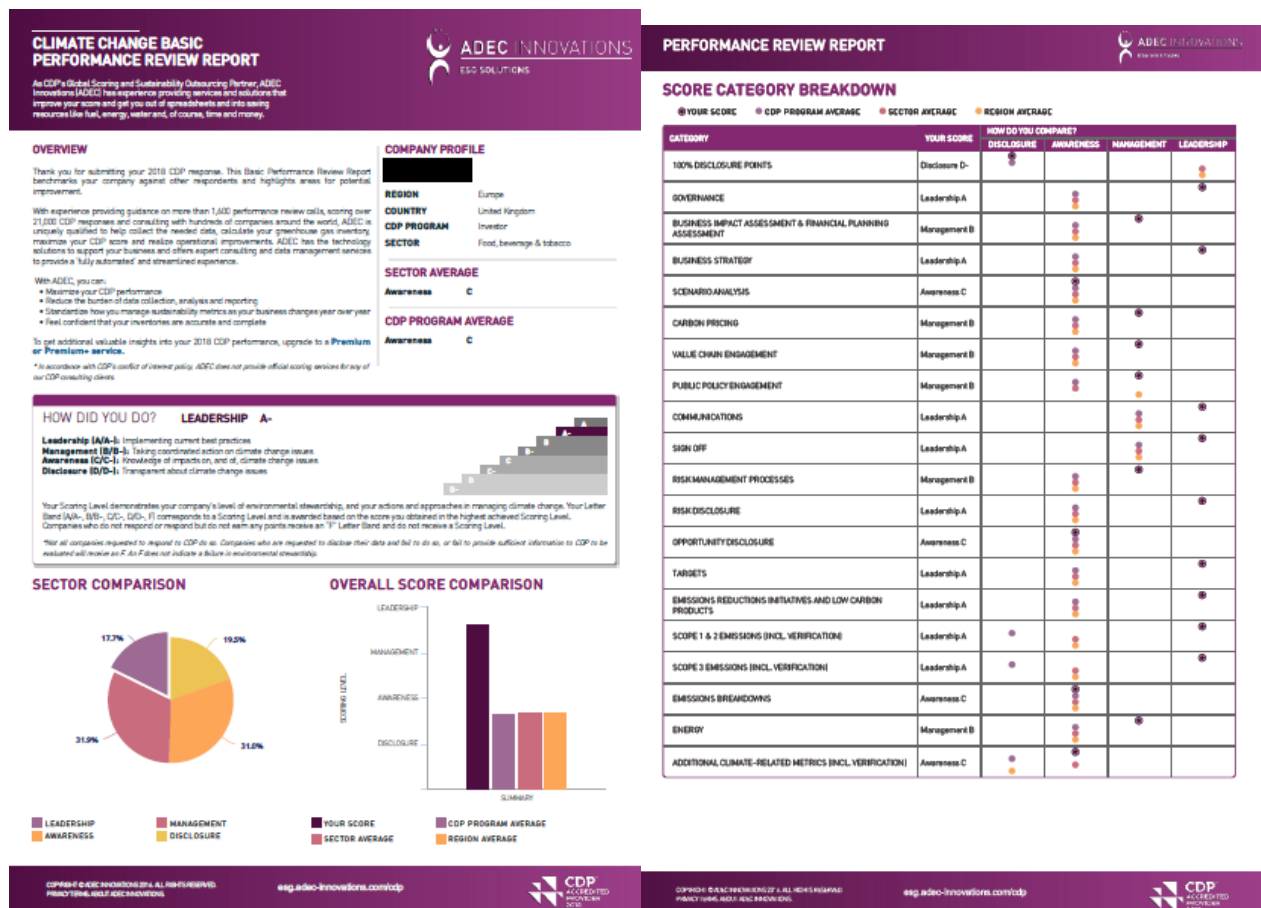

We look forward to hearing from you.

¹ Please note that a company which is not eligible to receive a score will also not be able to purchase an On-Demand score. For more information, please see CDP's Scoring Introduction.

² If you choose for your score to be “private”, unless you achieve an A grade in which case we may make your score public, we may only make it available to our group companies and affiliates (for example, CDP North America, Inc), our country partners, research partners, report writers and scoring partners, in each case for any use within their organizations but not for publication. Note that if you also submit your response to Supply Chain Members it will also be available to any Supply Chain Member that has asked you to respond to the Questionnaire

2018 ADEC Feedback Chart example

Please note, the 2019 ADEC feedback charts may be different to reflect any changes in the questionnaires and scoring methodologies.

HOW DID YOU DO? LEADERSHIP A-

Leadership (A/A-): Implementing current best practices
Management (B/B-): Taking coordinated action on climate change issues
Awareness (C/C-): Knowledge of impacts on, and of, climate change issues
Disclosure (D/D-): Transparent about climate change issues

Your Scoring Level demonstrates your company's level of environmental stewardship, and your actions and approaches in managing climate change. Your Letter Band (A/A-, B/B-, C/C-, D/D-, E) corresponds to a Scoring Level and is awarded based on the score you obtained in the highest achieved Scoring Level. Companies who do not respond or respond but do not earn any points receive an "F" Letter Band and do not receive a Scoring Level.

*Not all companies requested to respond to CDP do so. Companies who are requested to disclose their data and fail to do so, or fail to provide sufficient information to CDP to be evaluated will receive an F. An F does not indicate a failure in environmental stewardship.
