

HOW CAN CDP REPORTER SERVICES HELP YOU?

Our team of experts will work with you to build transparency with your investors and customers by enhancing the quality of your disclosure and strengthen your sustainability strategy based on valuable insights from CDP's data.

Understanding environmental best practices leads to efficiency improvements and innovations that reduce costs and improve your performance, supporting the business case for investing in sustainability.

USE CDP REPORTER SERVICES TO BETTER MANAGE YOUR IMPACT ON:

Climate Change

Forests

Water Security

“Reporter Services has allowed us to improve not only our CDP reports, but also our climate related management.”

GRUPO LOGISTA

“Accurate advice from the account manager revealed our weaknesses and led to improved activities.”

NIKON CORPORATION

Membership Benefits

1 STRATEGIC SUPPORT

- Work one-on-one with your CDP account manager to understand CDP questionnaires, guidance and scoring
- Collect feedback on your disclosure from the previous year to identify relevant gaps and provide you with the right tools to improve
- Receive comprehensive review of your disclosure prior to submission to ensure your response is ‘investor ready’ with clear and company-specific information aligned with CDP’s technical guidance

2 EVENTS AND INSIGHTS

- Join a network of engaged responders, leading sustainability practitioners and subject matter experts
- Access exclusive events and webinars on a broad spectrum of sustainability-related issues
- Stay up to date on new CDP initiatives, questionnaire changes and capacity-building resources

Identify improvement areas

Benchmark against peer companies

Prioritize short- and long-term actions

Learn about global climate action initiatives

Gain understanding of CDP reporting requirements

Final review ahead of disclosure submission

3 DATA AND ANALYTICS TOOLS

Access the tools you need to integrate carbon, energy use, forest commodities and water management into a wider business strategy

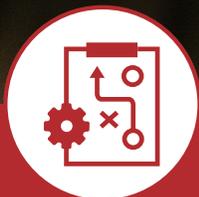

SECTOR DATA EXTRACTS

Access to best practice responses and all CDP data points in your sector

CUSTOMIZED BENCHMARKING

Understand your strengths and weaknesses compared to your peers and communicate the business case for action

INTERACTIVE ANALYTICS

Identify risks and opportunities in your sector and strategies to manage them

WE PROVIDE YOU WITH THE TOOLS AND SUPPORT TO DRIVE TANGIBLE PROGRESS ON YOUR SUSTAINABILITY OBJECTIVES
