Newcastle City Council

Stadt Bern

The collaborative decision-making platform

Deliver an easy to understand, co-created and data-driven climate plan that attracts funding & financing.

Months of work, done in days

The ClimateOS platform allows cities to quickly unlock vital insights, build understanding and apply a framework for answering the necessary and difficult questions faced by a city in its transition.

Manage complex city systems

"ClimateOS intelligently links data from numerous activies so we can reate a holistic, citywide plan of action."

Mannheim, Germany

Collaborate at scale

"Stakeholders can interact, try out different scenarios and learn how it all fits together. It's opening up meaningful participation in a dynamic, working strategy"

Dundee, Scotland

Connect the dots

"Beyond emissions data, what we needed was an evidence base linking real world shifts with emissions reduction."

Hammersmith & Fulham, London

⊕ ClimateView

# A powerful & intelligent transition platform

- **End-to-end collaboration for stakeholders**
- **State-of-art modeling and interface design**
- **Expert support and global community**

Where are we ?
Understand Emissions

Operationalize your city data, manage your Emissions Inventory and calculate your Carbon Budget

- ✓ **Emissions Inventory**
- ✓ **Carbon Budget**
- ✓ **CDP Reporting**

Where are we going?
Define the pathway

Simulate your city, break down the transition and model limitless what-if scenarios to best reach your target.

- ✓ **85+ Transition Elements**
- ✓ **Instant Scenario Builder**
- ✓ **Goal Refinement**

What do we need to do?
Link Actions to Emissions

Apply the right mix of actions that will address the barriers to change.

- ✓ **Action Editor**
- ✓ **Rank & Rate Actions**
- ✓ **SMART Evaluator**

How do we get buy-in?
Engage Stakeholders

Easily communicate with and include more groups throughout the process.

- ✓ **Turnkey Plan Website**
- ✓ **Interactive Graphics**
- ✓ **Community Action Feedback**

How are we doing?
Manage Delivery

Track progress, shorten feedback cycles and adapt strategy faster.

- ✓ **Dynamic Progress Display**
- ✓ **User-Task Manager**
