

2022 CDP EUROPE WORKSHOP LEADING THE DECADE OF DELIVERY

Wednesday 27 April 2022 – 10:00 – 12:00 CEST

BIODIVERSITY

HOUSEKEEPING NOTES

- ▼ Submit your questions anytime in the Q&A section
- ▼ Slides will be shared with you after the event
- ▼ The event is being recorded

SPEAKER

Tobias Kirchhoff

Team lead CDP reporting

DFGE

AGENDA

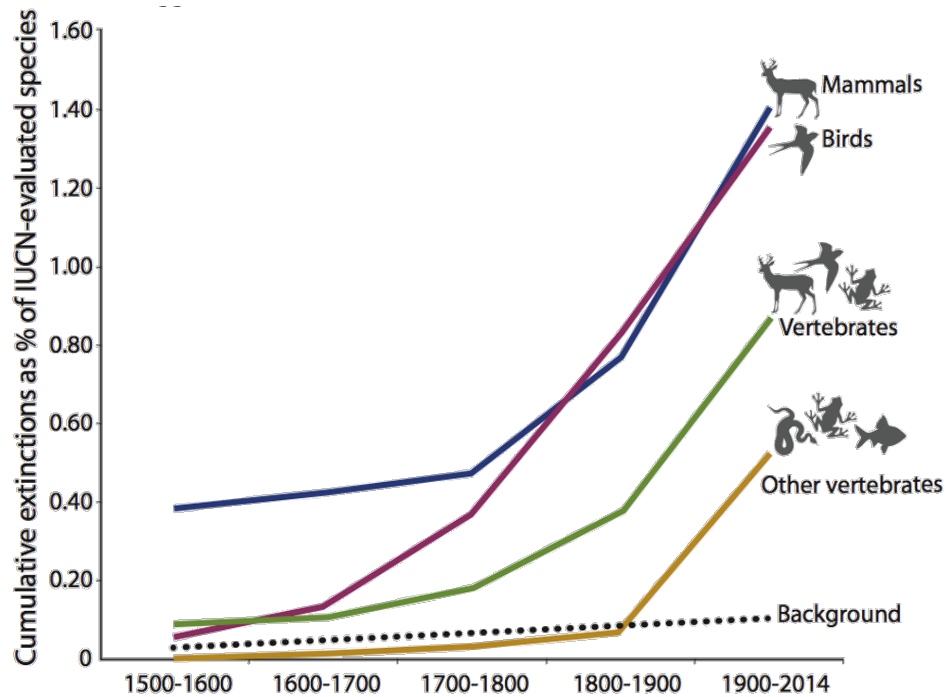

- DEFINITION / MAIN DRIVERS
- WHY IS IT RELEVANT?
- ADVANTAGES
- BIODIVERSITY PERFORMANCE GUIDELINES
- CDP CLIMATE CHANGE QUESTIONNAIRE
- COMPANY EXAMPLE

BIODIVERSITY

What is biodiversity and biodiversity loss?

“The species, habitats and ecosystems (including the services they provide) that occur within a company’s area of influence” - Definition for companies

Sixth mass extinction:

Main drivers of biodiversity loss:

- Land use and sea change
- Direct exploitation of organisms
- Climate change and severe weather
- Pollution
- Invasion of alien species
- Natural system modification

Why is biodiversity loss relevant to companies?

Companies

- Harm nature
- Depend on ecosystem services and natural resources
- Main driver of habitat loss: land use change

Costs

- Loss of ecosystem services: nearly \$10trillion by 2050
- Biodiversity loss and COVID-19

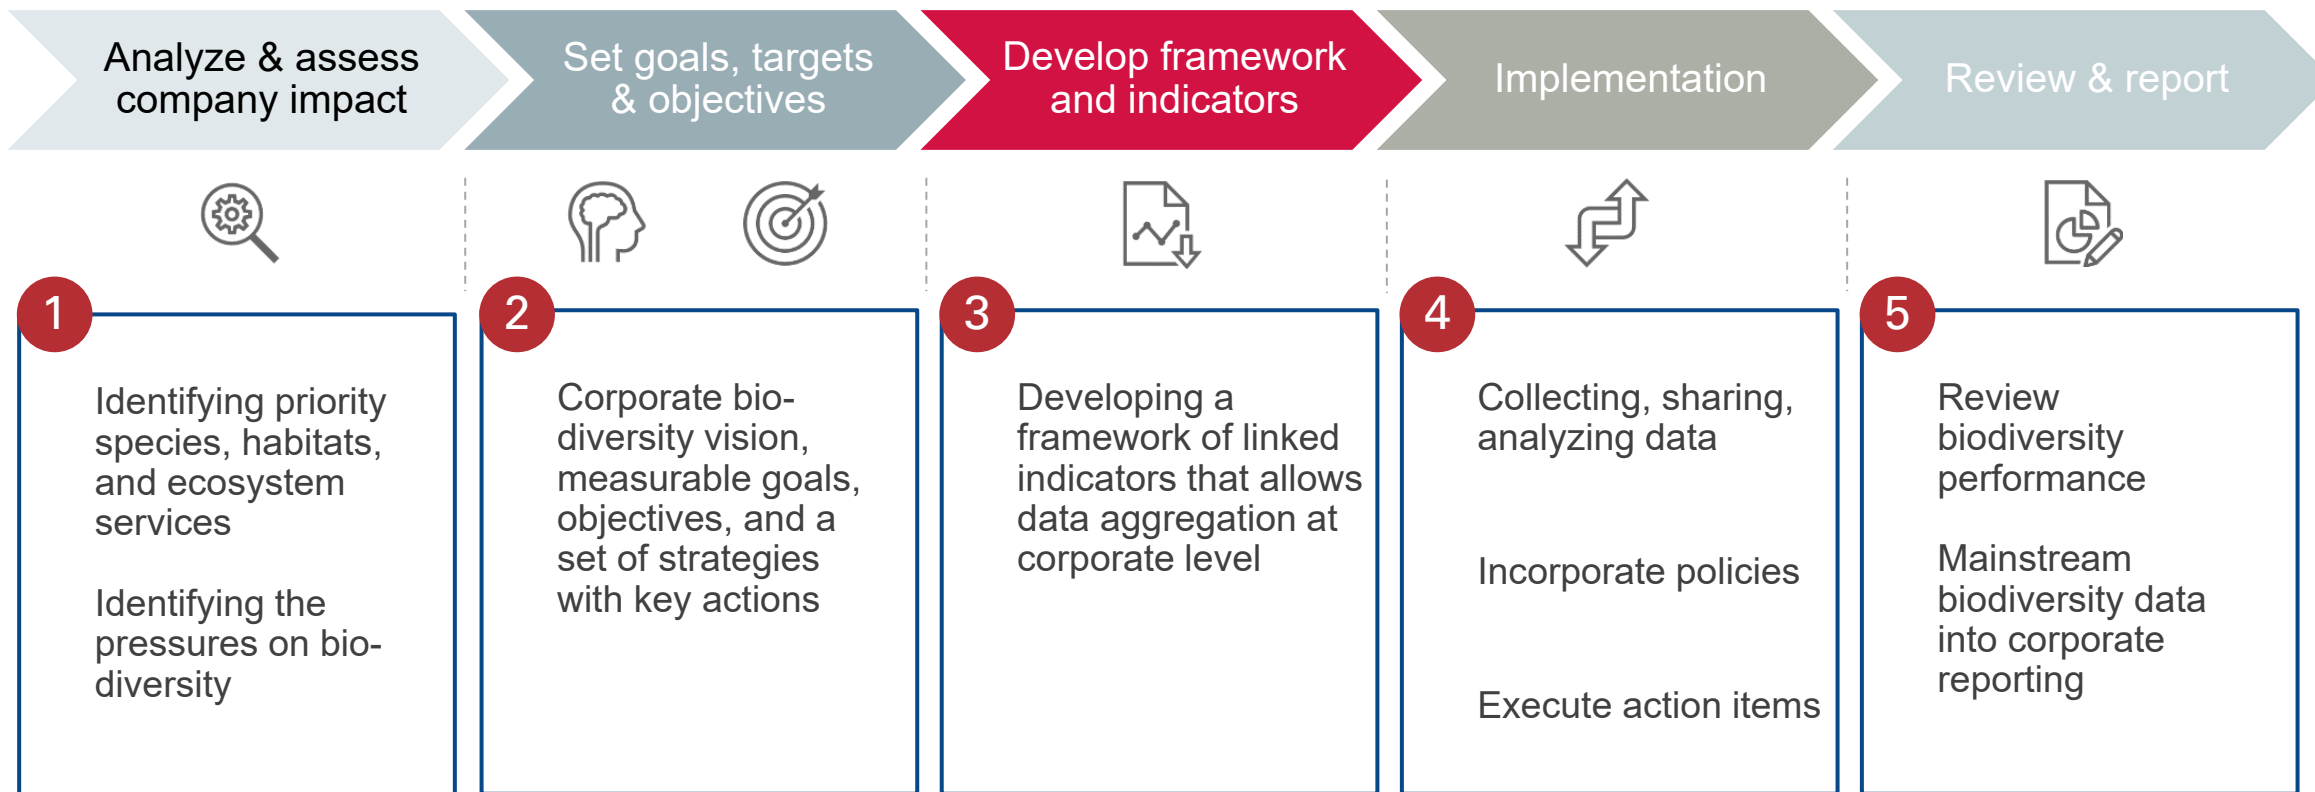

Regulatory requirements

- French Article 173, ECB, EU taxonomy, SFDR

Advantages

- Manage and mitigate risks
- Ensure the sustainability of the ecosystem services a company depends on
- Comply with upcoming regulation, investor demands, disclosure requirements
- Identify credible indicators for biodiversity performance
- Develop new markets: e.g. certified sustainable products
- Cost saving: more efficient use of natural resources
- Strong environmental reputation in a competitive marketplace
- Attracting and retaining employees

Biodiversity performance guidelines

How CDP integrates biodiversity in the Climate Change questionnaire

Climate Change

C0 Introduction
C1 Governance
C2 Risks and Opportunities
C3 Business strategy
C4 Targets and performance
C5 Emissions methodology
C6 Emissions data
C7 Emissions breakdown
C8 Energy
C9 Additional metrics
C10 Verification
C11 Carbon pricing
C12 Engagement
C15 Biodiversity
C16 Signoff

New set of questions: without any scoring in 2022

C15.1 requests details of board-level oversight of biodiversity-related issues.

C15.2 requests details of public commitments/endorsements related to biodiversity.

C15.3 requests details of the impact of the value chain on biodiversity.

C15.4 requests details of actions to progress biodiversity-related commitments.

C15.5 requests details of biodiversity indicators and performance monitoring.

C15.6 requests details of other biodiversity-related publications.

BIODIVERSITY

Company example

NESPRESSO AND BIODIVERSITY

IN ACCORDANCE WITH THE IUCN GUIDELINES FOR PLANNING AND MONITORING
CORPORATE BIODIVERSITY PERFORMANCE

The Nespresso biodiversity framework identifies species, habitats and related ecosystem services that are priorities for company action across coffee landscapes. It also includes the most important pressures and impacts on biodiversity that Nespresso will tackle.

PRIORITY BIODIVERSITY

Species	Habitats	Important areas	Ecosystem services
<ul style="list-style-type: none"> ▪ Forest birds ▪ Freshwater fish ▪ Insects: Order Odonata (dragonflies, etc.); Order Lepidoptera (butterflies, etc.); Family Apidae (bees) ▪ Soil invertebrates (insect larvae, earthworms) ▪ Threatened native trees 	<ul style="list-style-type: none"> ▪ Subtropical / tropical moist lowland and montane forests ▪ Subtropical / tropical moist shrublands ▪ Wetlands, including river systems 	<ul style="list-style-type: none"> ▪ KBAs and protected areas within 5 km of farms 	<ul style="list-style-type: none"> ▪ Soil quality and stability ▪ Watershed maintenance ▪ Water quality ▪ Pollination ▪ Pest regulation ▪ Nutrient and carbon sequestration ▪ Timber and non-timber forest products ▪ Income from sale of harvested agroforestry crops
