About the European Climate Pact

Taking environmental action to build a greener Europe

- ▼ **What:** The European Climate Pact is an EU Commission initiative bringing citizens, companies, and local authorities together to achieve a climate neutral Europe.
- ▼ **How:** European stakeholders join the European Climate Pact by **making a pledge** to concrete environmental action in a way that can be measured and tracked.
- ▼ **Through CDP disclosure** your organization can fully track progress against your sustainability strategy and showcase your growing environmental leadership on the European Climate Pact website

Why join

Facts and figures

235 Organizations

178 Companies

1705 pledges

▼ Why:

- A natural step in disclosure journey: take action and communicate about it;
- Ensure transparent and streamlined pledge reporting through CDP disclosure;
- Minimal additional commitment or reporting burden;
- Opportunities to work with EU stakeholders to help shape a greener Europe

How to pledge through CDP

Synchronize disclosure with your pledge reporting

- Radio button in the Submission page of the ORS

The European Climate Pact Submission

- Consent to have your disclosed environmental actions be showcased on the European Climate Pact website

- Pledge validation criteria: not all reported information becomes a pledge

Please indicate your consent for CDP to showcase your disclosed environmental actions on the European Climate Pact website as pledges to the Pact.

- For more detailed information: [Disclosure Platform Guide](#)

- Yes, we wish to pledge to the European Climate Pact through our CDP disclosure
- No, we do not wish to pledge under the European Climate Pact at this stage

What is a pledge in CDP disclosure

Your disclosed environmental actions – examples

Level of Ambition	European Climate Pact pledge	CDP disclosure data
<p>North Star: ambitious actions that contribute to greatly reducing greenhouse gas emissions and, in turn, to meeting the goals of the <u>Paris Agreement</u>. These actions are also consistent with the EU’s objective of achieving climate neutrality by 2050.</p>	<p>Have an officially validated science-based emissions reduction targets aligned with a 1.5°C scenario (scope 1+2) in line with the SBTi Criteria and Recommendations</p> <p>E.g. Company x has a target to reduce absolute scope 1+2 emissions 75% by 2025 from a base year of 2015</p>	<ul style="list-style-type: none"> - Emissions reduction target is fully reported in question 4.1 of the Climate questionnaire, in line with SBTi Criteria and Recommendations for parameters required on 1.5°C aligned targets (i.e. Baseline, boundary, target year, etc.); - Target is officially validated by SBTi and public on the SBTi website
<p>Pathway: concrete actions to mitigate a company’s environmental impact that contribute to the achievement of their North Star goals</p>	<p>Have a target to increase renewable energy consumption</p> <p>E.g. Company x has a target to procure 80% of electricity from renewable sources by 2030 from a base of 0% renewable electricity consumption in 2015</p>	<p>Target fully reported in question 4.2 – i.e. Base year, target year, figure/% in base and reporting year, % achieved in reporting year, coverage</p>
