Introduction

This is a provisional methodology (please see the Disclaimer below) and should be used in conjunction with the CDP [Questionnaire & Reporting Guidance 2024](#). It is strongly recommended to familiarise yourself with the contents of both the 2024 guidance and the [CDP full corporate questionnaire – Overview](#) before using the scoring methodology. Question dependencies will be detailed in these supplementary documents to inform companies which questions they are eligible to be scored for.

This document provides the scoring criteria and points available for each question in CDPs 2024 full corporate questionnaire. In 2024, the previously separate CDP questionnaires on climate change, forests and water security have been integrated into one corporate questionnaire. Through this questionnaire, organizations can provide data on multiple environmental issues in a single disclosure, encouraging more holistic and balanced reporting.

Scoring for multiple environmental issue areas in 2024

While the questionnaire has been integrated, separate climate change, water and forests scores will continue to be awarded in 2024, with separate scoring methodologies for each environmental issue area. Modules 1 to 6 (and 13) are integrated, which means that questions in these modules cover more than one environmental issue area. Conversely, modules 7-11 relate to ‘Environmental Performance’ and each module is specific to an environmental issue area. Organizations in the financial services sector will be presented with module 12, which is an integrated, sector-specific ‘Environmental Performance’ module.

Each question is tagged to one or more of the three environmental issue areas, listed under the question text. The following notations have been used in this document to denote environmental issue areas (Table 1). For some questions that are tagged to multiple themes, each theme will be scored in the same way. In other questions tagged to multiple themes, each theme might be scored differently. Please ensure you refer to the specific set of criteria relevant to your organization.

Notation	Theme
CC	Climate Change
W	Water Security
F	Forests

Table 1 - Theme notation

Primary sector scoring in 2024

Along with environmental issue areas, each question in the questionnaire is tagged to sectors. Organizations in high-impact sectors will be presented with questions specific to that sector and may be scored differently in general questions that display for all responders.

The sector-based approach allows CDP to make more meaningful assessments of companies' responses, incorporating each sector's characteristics and nuances, resulting in a score that reflects the company's progress in environmental stewardship and enabling better benchmarking against other companies.

Responders will only be scored on their primary questionnaire sector. This means that if more than one set of sector questions applies to your organisation, not all questions will be scored.

However, we encourage you to respond to all questions that apply to your organisation.

Each question is tagged to one or more sector, listed under the question text. The following notations have been used in this document to denote sectors (Table 2). Some questions have multiple scoring outcomes depending on primary sector. You may need to scroll down to find the correct criteria for your sector in these instances.

Notation	Sector
AC	Agricultural commodities
CG	Capital goods
CE	Cement
CH	Chemicals
CO	Coal
CN	Construction
EU	Electric Utilities
FB	Food, beverage & Tobacco
FS	Financial services
GN	General
MM	Metals & Mining
OG	Oil & Gas
PF	Paper & Forestry
RE	Real Estate
ST	Steel
TO	Transport OEMs
TO-EPM	Transport OEMS-EPMs
TS	Transport services

Disclaimer

This scoring methodology is intended to provide guidance to companies in relation to how their response will be scored. In common with other scoring processes of this type, we expect to make future adjustments, during the disclosure cycle, to optimise the clarity of the scoring methodology in context of responses received. Adjustments to the scoring methodology should have minimal impact on your response planning/resource allocation.

CDP therefore reserves the right to amend or alter scoring criteria displayed in the scoring methodology at any time during the disclosure cycle. Such adjustments will be made without obligation to give advance notice, but any adjustments made from time to time will be listed and displayed prominently. Please refer to the Version Control to view updates notifying you of adjustments.

Notwithstanding that CDP reserves the right to amend or alter its scoring criteria during the disclosure cycle, CDP commits to use best endeavours to only make adjustments where essential to ensure that our scoring methodology remains robust and effective for the purpose of assessing progress towards environmental stewardship.

Full Awareness points must be awarded in question 12.1.1 OR 12.1.3 to be eligible for Management points.

ROUTE A)

Document(s) in column 'Attach the statement' meet all of the following criteria – 4 points

i) The statement relates to Scope 3 greenhouse gas (GHG) emissions OR it is clear that Scope 3 GHG emissions were the subject of the assurance engagement.

AND

ii) The statement relates to the correct reporting year provided in question 1.4 and 'Complete' is selected in column 'Status in the current reporting year'.

OR

'Annual process' selected in column 'Verification or assurance cycle in place' AND 'Underway...previous statement attached' in column 'Status in the current reporting year' AND Document attached refers to a 12-month period prior to the reporting year provided in question 1.4.

OR

'Biennial process' selected in column 'Verification or assurance cycle in place' AND 'Underway...previous statement attached' in column 'Status in the current reporting year' AND Document attached refers to a 2-year period prior to the reporting year provided in question 1.4.

OR

'Triennial process' selected in column 'Verification or assurance cycle in place' AND 'Underway...previous statement attached' in column 'Status in the current reporting year' AND Document attached refers to a 3-year period prior to the reporting year provided in question 1.4.

AND

iii) The verification standard referenced in the document is accepted by CDP.

AND

iv) The statement contains an opinion or finding which confirms verification .

If all of the above criteria are met an additional point will be awarded for the following:

v) Document in column 'Attach the statement' relates to at least one portfolio group as specified in column 'Portfolio' in question 12.1.1 OR 12.1.3 - 1 point

OR

ROUTE B)

'Underway but not complete for current reporting year – first year it has taken place' selected in column 'Status in the current reporting year' – 4 points

Please note:

- Only documents provided in question 7.9.3 will be scored for this question
- All verification or assurance statements attached in one row are subject to the Management level criteria
- Please see the CDP verification page for the full list of accepted verification standards

Leadership criteria

The following conditions must be met to be eligible for Leadership points:

At least 4/5 Management points awarded.

ROUTE A)

Any of the following are met - 0.5 points

For all rows where 'Annual process' is selected in column 'Verification or assurance cycle in place' the following must be met: All statement(s) attached meet all Management criteria in ROUTE A) (excluding criteria v) AND sum of figures provided in column 'Proportion of reported emissions verified (%)' is 70 or higher.

OR

For all rows where 'Biennial process' is selected in column 'Verification or assurance cycle in place' the following must be met: All relevant statement(s) attached meet all Management criteria in ROUTE A) (excluding criteria v) AND sum of figures provided in column 'Proportion of reported emissions verified (%)' is 70 or higher.

OR

For all rows where 'Triennial process' selected in column 'Verification or assurance cycle in place' the following must be met: All relevant statement(s) attached meet all Management criteria in ROUTE A) (excluding criteria v) AND sum of figures provided in column 'Proportion of reported emissions verified (%)' is 70 or higher.
